

PRESS RELEASE

TRESCAL MAKES A NEW STEP IN BRAZILIAN CALIBRATION MARKET

Paris, July 4th, 2019. Trescal, the international specialist in calibration services, is taking a new step in its geographical expansion in Brazil with the acquisition of **Setting and Instituto Amazonense de Metrologia (IAM)**.

Founded in 1993 and headquartered in Sao Paulo, with accredited laboratories in Sao Paulo city and Manaus, **Setting** also delivers Inmetro Accredited Proficiency Tests and Certified Reference Materials (PH & Conductivity).

Founded in 1997 and headquartered in Manaus, **IAM** is a single source provider of calibration services. Thanks to it's unique set of Inmetro accredited skills in Manaus, IAM is the suitable entity to become Trescal Amazonas.

Trescal operates now twelve accredited laboratories in nine Brazilian States, located in Porto Alegre, Curitiba, Cerquillo, Sao Paulo, Santo Andre, Taubate, Rio de Janeiro, Belo Horizonte, Vitoria, Salvador de Bahia, Recife and Manaus. Furthermore, the company also operates two different kinds of mobile accredited calibration laboratories, according to customer needs.

Guillaume Caroit, Trescal Deputy CEO, said: *“These acquisitions confirm our strategy to become a major actor in South American Calibration Marketplace.”*

These are the 16th and 17th acquisition since the change of ownership to Omers in April 2018.

ABOUT TRESICAL

Trescal is an international specialist in calibration and provides a broad range of services for the testing and measuring equipment market. Trescal is represented in 24 countries: Australia, Austria, Belgium, Brazil, Canada, Czech Republic, Denmark, France, Germany, Italy, Luxemburg, Malaysia, Mexico, Morocco, New Zealand, Singapore, Spain, Sweden, Switzerland, Netherlands, United Kingdom, United States, Romania and Tunisia. Supplementing its standard technical services (verification, calibration and repair of T&M instruments), Trescal provides expertise in the implementation and acquisition of measurement systems, customized equipment pool management software solutions, metrology and technical support, and training. Trescal operates 145 calibration laboratories and employs over 3,700 people across the world. Trescal provides services to 50,000 customers in a variety of sectors such as Defence, Aerospace, Aeronautics, Automotive, Power Generation & Utilities, Electronics Manufacturing, Communications and Medical & Chemistry. Trescal has Pro Forma sales of Euros +340 million.
